The New Rochelle police have been told by Grover Cleveland, a young friend of the couple who is now in charge of the house, that Mr. Smith and his bride lived happily together. The servants also say that they never saw any domestic trouble. In their nine months of married life, according to Cleveland. Mr. Smith had given his bride about \$3,000 in furnishing the house on Woodland avenue and was paying \$1,500 a year rent. Friends of Smith say that the woman could have no possible reason for wishing to get him out possible reason for wishing to get him out of the way.

The police think that the tragedy was too well planned to have been the work of an insane person. They say that if Mrs. Smith had intended to have murdered her husband and burned the house for the purpose of hiding her crime she would have been entirely successful had the fire which she set in the basement exploded the barrel of machine oil, as she evidently expected it would. The oil is a heavy petroleum and instead of making a fierce blaze it only smothered itself out after flickering for a while and making a dense smoke. The fact that Dr. Acton lived only nine months after his marriage to the dead woman and that his death was caused morphine poisoning has prompted these niries. When the first news of the tragedy was received and it was thought that Smith had done the shooting his most initimate friends said that they were not the least surprised. They did not suspect Mrs. Smith, for she was regarded as a most composed person under trying circumstances.

Smith often said that she was sorry that her husband was so devoted to business that he did not have time to enjoy the pleasures of the outside world. A few days later Cochrane got into trouble and was locked up in the lazarette, where there is so little headroom that he says he could not stand up, and that even if he had tried to he could not have done so because he was chained by the wrists to the deck. He declares that for thirty-eight days, or until a few days after the Antioch reached Turk's Island, on November 3, to take on a cargo of salt, he was kept in irons in the lazarette: He also says that he was benten by the barkentine's officers and was kept on a scant diet, consisting chiefly of water a scant diet, consisting chiefly of water i bread. UNION FINES REMITTED.

But the Union Will Go After Eleven Nor Strikers in Newark Again. Eleven members of Newark local No. 1209 of the United Brotherhood of Carpenters and Joiners will receive a check for \$100 each to-day. The money represents fines imposed for failure to go on strike

with the carpenters last spring. The men paid the fines under protest and their appeal was sustained by President Huber, who ordered the fines remitted, declaring that the action of the local had not been properly taken. An appeal from his ruling was made to the executive board, with the same result.

The district council mailed the checks yesterday but will file new complaints at once. The eleven men declare they will continue their fight against the fines.

APPEALS TO WEALTHY JEWS

RABBI WISE SAYS THEY NEGLECT THE POOR OF THEIR RACE.

Annual Meeting of the United Hebrew Charities Leads to a Lively Discussion -One Plan to, Name a Committee to Appeal to All Wealthy Hebrews,

Dr. Stephen S. Wise, rabbi of the Free Synagogue, at the annual meeting of the United Hebrew Charities yesterday urged that vigorous demands be made upon the wealthy Jews for the immediate relief of their poor. He declared that the contributions to Hebrew charities reflect pitiable lack of attention and he suggested the appointment of a committee to go to the rich Jews and demand that they come to the aid of their poor.

The annual report of the board of directors, which was read at the meeting by Dr. Lee K. Frankel, manager of the society showed that in the fiscal year which ended on September 30 it was impossible to meet all the demands that were made. The society requires at least \$300,000 a year. the report said, while it is assured of only \$150,000 per annum.

In the last fiscal year there were disbursements of \$295,000, of which \$217,000 was spent in cash relief, the balance being expended for the maintenance of the medical department, the purchasing of supplies and transportation and carrying on the work among Jewish immigrants. There was received from societies approximately \$22,000; from commemorations and appeals, \$13,000; from special donations, \$13,000; from memberships, \$67,700; from general dopations, \$24,632 and from the three year guarantee fund, \$95,185. Even with these contributions it was found impossible to meet the demands made, and the society had to make use of legacies amounting to \$78,835. But for a legacy of \$14,000 from M. W Mendel, which was received late in September, the fiscal yea- would have closed with a deficit.

Dr. Wise, in advocating the appointment of a committee to go among the wealthy Jews and demand that they aid the poor of their race, said that while he knew the United Hebrew Charities has been doing its full duty to the poor he doubted that it had done its full duty to the rich .ews

"The United Hebrew Charities is the fundamental Hebrew charity of New York." he said, "and its officers and members he said, "and its officers and members should see to it that the sufferings of the poor are alleviated. And I must say that it is a deplorable fact that in a Jewish community of three-quarters of a million population there are only 3,800 contributors to Hebrew charities. It is a pitiable showing which reflects a pitiable lack of attention and little honor. Knowing that, how can we refer to what we like to call the unstinted generosity of the Jews? But I will say that the Jewish people are in need of a defence. Perhaps they don't know. The society has done its duty, but it still has a society has done its duty, but it still has a duty to perform to the rich Jews of this

duty to perform to the rich Jews of this city.

There are thousands of wealthy Jews who should support the United Hebrew Charities and who haven't bothered themselves Perhaga if they were informed of the work that the society has been carrying on they would become interested and give the help they should. I suggest that a committee of members of the society, officers and directors excluded, be appointed to prepare a clear, succinct statement of the work that has been accomplished during the last year and present it to the wealthy Jews who have thus far failed to contribute, with a vigorous demand that they aid us. It is our duty to make them know the pitiable plight of our unfortunate poor, and with this report and an appeal I feel that we could accomplish something.

Dr. Wise made a motion to have the committee appointed, but upon the suggestion of Edward Lauterbach it was decided to have the matter discussed at the meeting of the federation of Hebrew charitable organizations which is to take place within a few weeks. within a few weeks.

MORRISTOWN, N. J., Nov. 24 .- All day ong and throughout the night search has been made for Mahlon Leonard, the sixteen-year-old son of Mr. and Mrs. William H. Leonard, who while hunting yesterday accidentally shot Lewis H. Babbitt, a boy of 12. The woods about the New Jersey and Pennsylvania station in this city, where the shooting occurred, have been tramped by the father and volunteers without the discovery of trace of the boy.
"I don't know what to make of it," said Mr. Leonard to-night. "Sometimes I fear the boy has harmed himself and is lying alone somewhere in the woods. I have made inquiries at every farmhouse for miles around, but no one seems to have seen him. He isn't fully dresced, for after the accident he took off his coat and laid it over the Babbitt boy, and the coat was brought home to me last night by Edward Sweeny, who was with the boys.

The conductor is a little Italian who before he worked for the railway company was a lightweight scrapper known as Joe Sweeney. Not a bit frightened, he squared off. This was the cue for Red's entrance. Red patted Joe Sweeney on the back and said "Go ahead, I'll stand by you." Joe "went ahead," and the first man to slug him he says, was Red, who got in one from behind. The conductor knocked down three of his assailants and was mixing it with Red when Policeman Hudson of the West Forty-seventh street station hove in sight and arrested Red. Hudson has arrested Red before, and says this was the first time he ever knew him to be out at night without a blackjack.

Two of the gang beat it when they saw the cop, but the fireman, McGrane, stayed, and going for Hudson tried to take his prisoner away from him. Then Sergt. Haag of the same precinct came up and took in the fireman. Berry of Newport, Ky. still has many friends who will support Taft on that account.

"Now simply because I have outlined my reasons for thinking Secretary Taft would make a good President I don't want anybody to think that I am against Gov. Hughes. On the contrary, I firmly believe that Gov. Hughes would make a fine President. He is an ideal Governor. I admire him and know that he has many friends in this State. His political methods are clean and business-like; his ability in dealing with Ohio's Famous Calculator to Try Again

Isaac J. Palmer, one of the oldest dry dock owners in this harbor, died on Saturday at his home, 59 Clerk street, Jersey City, at the age of 77. He was born at St. John, N. B., and followed the sea at an early age. He was captain of a sailing vessel at 17 and visited ports in all parts of the world. He settled in New York city in 1864 and established a dry dock business at the foot of Stanton street. He subsequently had an extensive plant in the Weehawken Cove at Weehawken for a quarter of a century. Seven years ago he moved his business to the South Cove at Henderson street, Jersey City. Mr. Palmer was a thirty-second degree Mason. His wife died two years ago. He is surrived by two daughters and three sons, Isaac J., William K. and Robert K.

George Eichorn, 70 years old, a brother of COLUMBUS, Ohio, Nov. 24.—Gen. Charles H. Grosvenor of Athens will be a candidate for Congress next fall, and he believes that he will be successful.

The announcement of his candidacy will probably not be made until after the State CHILDREN WASHED OVERBOARD. Three Little Girls Carried Away by Wave's

George Eichorn, 70 years old, a brother of Prof. Charles F. Eichorn, a well known organist of Newark, died at his home, 187 Johnson avenue, that city, on Sturday night of heart disease. Mr. Eichorn was prominent among the Germans and was a retired business man. When he went to his room Saturday night one of his daughters heard him moan. They found him lying on the floor and summoned a doctor, but Mr. Eichorn did not rally. He is survived by his wife and nine children.

Charles J. Dade, 80 years old, a cetired actor, died on Saturday morning of gastritis at his home, 61 West Sixty-eighth street. He was born in New Haven and had been on the stage nearly all his life. He was with Richard Mansfield for a time. His last engagement was with Louis Mann. He leaves a widow.

Off Cape Flattery the sea was high but the sky was bright. Florence Buckman, 13, and Rita and Ada Schotte, 12 and 4, were playing in a gangway below the bridge, amicships. This gangway forms a kind of funnel through which the water pours when the deck is flooded. It is supposed that a large wave struck the ship and that the water swept the children overboard.

The Schotte children had come from Australia with their mother to meet their father, who lives here.

PASTEURINED MILK ABROAD.

Dr. Green of the Straus Laboratories Tells

Dr. Arthur Randolph Green, director of the Nathan Straus laboratories for the pasteurisation of milk, returned yesterday from Europe

"Mr. Straus's chief concern now," said Dr. Green, "is to have every mother know that the scientific men of the world practically agree that raw milk is not safe food for babies and to have every mother know further that she can readily save her children from contracting consumption or other disease from milk by pasteurizing the milk that she gives them—that she can do this herself in her own kitchen with very little trouble and at practically no ex-

Dr. Green cited the warning isued by the International Milk Congress at Brussele against the use of raw milk for infants and the advice of that body that in all cases the cow's milk given to infants be boiled

the cow's milk given to infants be boiled or pasteurized. Dr. Green added:

"Mr. Straus naturally was gratified at the action of this body, which was composed of experts from all nations, in indorsing the policy he has advocated for fifteen years and in setting the seal of high authority upon the warning against the use of raw cow's milk for babies.

"In Germany the professors and the medical men with great unanimity teach the peril of raw milk, but the mass of the people know little of the danger. Conditions in Germany are about the same as in this country with respect to the extent of tuberculosis in the dairy herds. The official figures given to me in Berlin at the Ministry of Agriculture show that 25.3 per cent. of the milch kine are tuberculous and it is admitted that it will require years of careful and thorough work to stamp out the disease in the herds.

"Meanwhile in Germany, as in England and in this country, the safety of the babies lies in the pasteurization of the milk given to them, and the only way to secure to the helpless infants pasteurized milk is to teach the mothers to pasteurize at home."

The burglar flashed a dark lantern and commanded her to be quiet. Her young son, in an adjoining room, was also roused and entered his mother's room. The burglar told the boy to get into bed with his mother and seating himself in a chair by the bed he covered them with a revolver and forced them to talk to him.

"My health is delicate," said the burglar, "and I can't venture out while it is raining." The burglar, who wore a half mask, was white and, Mrs. Land says, was very intelligent and treated her with great respect. When the rain ceased and he rose to depart he said to Mrs. Land: "I am sorry to have kept you awake, but I dare not get wet." The burglar got about \$300 in money and jewels from Mrs. Land.

WRECKONCENTRALNEW ENGLAND An Engineer Killed and a Lecomotive an Ten Cars Demolisi

MIDDLETOWN, N. Y., Nov. 24.-The Venell, an engineer residing at Pough-keepsie, was killed and a locomotive and ten cars filled with various merchandise were demolished in a collision on the Cen-tral New England Railroad at St. Elmo, three miles from East Walden, at 10 o'cloc this morning. The trains in collision were No. 101, a regular freight train, and No. 48, an extra. The locomotive of train 48 ran out of water at St. Elmo and it was detached from the train and run to Modena. Flagmen were supposed to be stationed at the front and rear of the train, but train 101 supplies an hour. but train 101, running thirty miles an hour, crashed into the head end of train 48 and ploughed through ten cars before coming to

Engineer Venell, Brakeman Whalen and the fireman jumped from the locomotive. The engineer was killed and Brakeman Whalen was slightly injured, but the fireman escaped unhurt. The locomotive, which was completely wrecked, was a new one, having been in use one week. It is estimated that the property loss through the wreck will foot up \$50,000. Engineer Venell is survived by his wife and one child.

HOLDUP IN HALLWAY.

Two Brothers Attacked and Robbed by Three Men, Who Escaped.

Richard Hammond and his brother, John Hammond, both clerks, were assaulted last night by three men in the hallway of the apartment in which they live, 411 West Fifty-third street. One of the assailant had a revolver and fired three shots, which lodged in the ceiling. John Hammond was lodged in the ceiling. John Hammond was struck with a blackjack and knocked unconscious. Richard Hammond missed \$60 from his pocket, but his brother's purse, which contained \$200, was not taken.

A crowd was attracted by the noise of the fight, but the three men escaped. Richard Hammond, accompanied by a number of his neighbors, went to the West Fortyseventh street police station, but up to a

ate hour last night no arrests were made.

"There's a Reason"

Once there was a girl who had two suitors; one called once a week and the other once a month. The weekly caller married the girl before his monthly rival had fairly gotten under way.

The moral of this history is that the frequent caller gets what he is after, whether orders or a marriage certificate.

THE SATURDAY EVENING Post calls every weekis welcomed by four million people, and has a wonderful record of successful suits.
